This is how I do politics. Always against the top, always against injustice, always for everyone instead of only for a few.

## ***IN CONCRETE TERMS, THIS MEANS:***

- 1.** We must finally tax the rich more heavily, so that we have enough money for public services, women, families and social services.
- 2.** This means, that we never play people off against each other, but we always stand up for everyone. In solidarity. No matter what colour their passport has.
- 3.** This means, that we do not only think about tomorrow's situation, but also 10, 50, 100 years from now.

**WTF!\***
